C24.2 What percentage of stock did your organisation fully assess for compliance in the last for years?	our 42.43
C24.3 The date of your next scheduled stock condition survey or assessment	April 2017
C24.4 What percentage of your organisation's stock will be fully assessed in the next survey	5.00

C24.5 How did your organisation use the survey data stated at C24.2 to establish how the stock complied overall with the SHQS

Stock archetypes were identified in greater detail in order to allow for a strong cloning methodolgy of the stock condition surveys. Almost all SHQS applicable properties were surveyed externally, with just over 42% surveyed internally. The survey incorporated stock condition and energy characteristics. The next stock survey will be carried out internally, covering a minimum of 5% of the stock per annum.

Comments (Housing quality and maintenance)

Of the 3 properties not serviced by their due dates, 1 was an error by Kingdom Gas who have acknowledged how the error occurred and have put in place measures to ensure that this is not repeated. The other properties were delayed due to access issues and were serviced the morning after the expiry date. Normally we would enforce access on the due date and we are reinforcing this element of our procedure with the staff involved.

Comments (Access to housing and support)

A highlight of the year has been the transformation in our re-let performance. This has been achieved via a clear focus on performance throughout the organisation and the implementation of an innovative approach to managing performance. We have set a 14 day re-let target for 2016/17 and have been meeting this consistently since the beginning of the current calendar year.
